# WHAT IS HSSF?

The High School Scene Festival is an annual scene competition featuring student performers from across Southern California. Students compete, connect, and cheer each other on. But it's not just for actors! We offer opportunities to compete in technical challenges (no experience necessary) and take workshops with Cal Poly Pomona faculty and lecturers, who are award-winning theatre professionals.

Special this year! Our student drama club A.C.T. may be able to offer a special performance of their self-produced production of TICK, TICK...BOOM! after the Festival. When you sign up, please let us know if staying late to see an exclusive show is of interest!
