A Two-Sided Debate

Among scholars there is a debate as to whether or not low voter turnout is a problem and whether compulsory voting is a viable solution.

Argument 1: Low voter turnout is a problem and compulsory voting is a solution.

- ← ■ Low voter turnout = unrepresented population.
- ← ■ Voters can become disenfranchised.
- ← ■ Compulsory voting ensures a more complete representation in government.

Argument 2: Low voter turnout is not a problem and compulsory voting violates the core principle of a democracy.

- ← ■ The right to vote implies the right not to vote.
- ← ■ Increase in uneducated voters.
- ← ■ Voting just to avoid the penalty.

“The Penalties”

- ← ■ Penalty notice sent by Divisions Recruiting Officer (DRO).
- ← ■ Pay first time penalty to (DRO) of \$20
- ← ■ Failure to pay can result in maximum \$50 penalty and in extreme cases involve, community service, seizure of goods, or a short period in jail.

Democracy at a standstill

A report from The Economist Intelligence Unit

Methodology

- Democracy index, on a 0 to 10 scale, is based on the ratings for 60 indicators grouped into five categories: **Electoral Process and Pluralism**, **Civil Liberties**, **Functioning of Government**, **Political Participation**, and **Political Culture**.

- Index values for four regime types:

Full democracies – scores of 8-10

Flawed democracies – score of 6-7.9

Hybrid regimes – score of 4-5.9

Authoritarian regimes – score below 4

The Model

← ■ Model uses a combination of dichotomous and three-point scoring system for the 60 indicators.

← ■ The dichotomous 1-0 scoring system is (1 for yes and 0 for no answer). Also included is the possibility of a 0.5 score to capture “grey areas” where a yes (1) or no (0) answer is problematic.

III Political participation

27. Voter participation/turn-out for national elections.

(average turnout in parliamentary elections since 2000. Turnout as proportion of population of voting age).

1 if consistently above 70%

0.5 if between 50% and 70%

0 if below 50%

If voting is obligatory, score 0. Score 0 if scores for questions 1 or 2 is 0.

28. Do ethnic, religious and other minorities have a reasonable degree of autonomy and voice in the political process?

1: Yes

0.5: Yes, but serious flaws exist

0: No

29. Women in parliament

% of members of parliament who are women

1 if more than 20% of seats

0.5 if 10-20%

0 if less than 10%

Australia	6	9.22	10.00	8.93	7.78	9.38	10.00

- ← Australia's overall score and individual scores highlight a country that uphold many democratic values.
- ← Concerns over recent political corruption and decline in youth participation in politics have however been cause for recent concern.
