

**Daily Reflections—Day 3**  
**Weather and Seasons**

**Name:** \_\_\_\_\_

What new idea or insight did you have today related to strategy 4 (analyzing and interpreting data and observations) and strategy 5 (constructing explanations and arguments)?

---

---

---

---

---

---

---

---

---

---

What ideas do strategies 4 and 5 give you about things to try or change in your science teaching?

---

---

---

---

---

---

---

---

---

---

Answer one of these questions: (1) What important science idea are you taking away from our content deepening work today? Remember to state the idea in a complete sentence. (2) What question do you have about weather or weather patterns (i.e., something you're unclear or wonder about)?
