

Transcript for Video Clip 2.1

Teacher/video ID:	Johnson, 2.1_mspcp_kinder_weather_johnson_pre.Alan_c1
Content area:	Weather and seasons
STeLLA strategy:	Ask questions to elicit student ideas and predictions (STL strategy 1). Ask questions to probe student ideas and predictions (STL strategy 2).
Context:	In this preinterview with a kindergarten student, the interviewer shows Alan different pictures and asks him to describe the weather in each of them.

Video Clip 1

Time Code	Speaker	Discussion
00:00:00	T	OK. So I've got some pictures for you, and I want you to tell me about the weather in these pictures.
00:00:10	SN	Oh?
00:00:11	T	[Inaudible] I'm looking for one in particular. This one.
00:00:17	T	What can you tell me about the weather that day?
00:00:22	S	Cold. A little cold.
00:00:24	T	What makes you say that?
00:00:26	S	Because the w— See, that tree is ... Like, the wind.
00:00:31	T	OK. And the wind is making it a little cold. Can you tell?
00:00:34	S	Yeah, and ... and the wa ... it's making the waves bigger.
00:00:38	T	Oh yeah. And does that make it cold as well, or does that have anything to do with the temperature when the waves are big?
00:00:44	S	Yeah. But ... but, like, in Mexico, the beach, like, the waves are, like, different.
00:00:53	T	What do you mean "the waves are different"?
00:00:55	S	Because some are small, [and] some are big.
00:00:57	T	Oh yeah, yeah, uh-huh. And does that have something to do with the wind?
00:01:03	T	OK. I want you to look at this picture. Do you think the weather on that day is the same or different than on this day?
00:01:10	S	Different.
00:01:11	T	How do you know?
00:01:13	S	Because the Sun is making this warm m— Like it's ... like i-in the woods or the mota ... or the mountains.
00:01:26	S	And it's, like, because the Sun is br-bright, and it's making it a little hot and sweaty.
00:01:35	T	OK. A little hot and sweaty. And ... and in this picture, you think it's colder

		because it's windier?
00:01:42	S	Yeah.
00:01:43	T	Yeah? OK. So now I want to look at this picture. What can you tell me about the weather that day?
00:01:49	S	It's, like ... it's like, almost, like, cold. It's, like, a little cold, like ... like 13 degrees.
00:02:01	T	What makes you say that?
00:02:04	S	Because it's going darker, and I think the wind is going.
00:02:08	T	OK. And what makes you think the wind go ... [is] blowing?
00:02:13	S	Because ... because the wind go ... only goes in that side ... is going over here in the mountains.
00:02:23	T	Mm-hm, mm-hm. OK. So tell me about ... this day.
00:02:29	S	This one? This one is ... 30 degrees because w— because it's May, so it's spring, and because it's raining.
00:02:45	T	OK. Does that—
00:02:46	S	That's why they have the umbrellas.
00:02:48	T	Do ... does it always rain in the spring?
00:02:53	T	Uh-huh. Is that the only time that it ever rains?
00:02:55	S	Yeah.
00:02:55	T	Yeah. Does it ever rain in the summertime?
00:02:57	S	No.
00:02:58	T	No? Does it ever rain in the wintertime?
00:03:01	S	Nope.
00:03:02	T	No? Only in the spring. Do you think that in other parts of the world ... like you mentioned Mexico—
00:03:10	S/T	Yeah. / Have you been to Mexico before?
00:03:12	T	Do you think that the weather in Mexico is the same as it is here in Denver, or different?
00:03:17	S	Well, summer ... well, when there's, like, a-a cold in Mexico, and sometimes it's hot in Mexico.
00:03:24	T	So sometimes it's cold there, and sometimes it's hot there. On a day that it's—
00:03:28	S	A-a-and ... and it sometimes rains all day there.
00:03:32	T	Oh, really? Really? And when it rains all day there, is it warm or cold or very cold?

00:03:38	S	It's a little hot.
00:03:40	T	It's a little hot when it rains. But now in this ... in this picture, do you think it's a little hot that day?
00:03:47	S	I-it's, like, a little cold, and, like, this cold ... this much cold, and this much hot.
