About the Senate

Background

- Since 1963 each California State University campus has had an Academic Senate
- A system-wide Senate was also created but has no authority over matters delegated to the individual campuses by the Chancellor or the Board of Trustees

Why do we have a Senate?

"The Legislature recognizes that joint decision-making and consultation between administration and faculty or academic employees is the long-accepted manner of governing institutions of higher learning and is essential to the performance of the educational missions of these institutions..."

California Higher Education Employer-Employee Relations Act
(HEERA, signed into law on 9/13/78)

The Academic Senate is the official voice of the faculty and the primary consultative body in areas established by its constitution:

- educational and other university policies
- academic personnel policies
- selection of administrative officials of university and foundations
- university administrative regulations and practices, including preparation of University Manual

Academic Manual

The Academic Manual is an online central repository for all academic policies at Cal Poly Pomona. It contains academic policies that have come into existence as a result of the shared governance structure at Cal Poly Pomona. The [development and/or revision of campus policies](#) starts with a referral submitted to the [Academic Senate](#). Through research, consultation, and careful deliberation, the Academic Senate adopts policies, which are then transmitted to the President for review and approval. Following approval by the President, the policy is included in this Academic Manual.
