Academic Senate Staff Report – December 4, 2024

Windows 11 Upgrade (for PC-based computers)

Timeline

January 7, 2025	Windows 11 will be required on our Faculty & Staff PC computers and prompt users for installation
Winter Break 2025	New & existing classroom and computer lab stations will receive Windows 11 (as applicable)
Summer 2025	All remaining classroom and computer lab stations will receive Windows 11 (as applicable)
October 2025	All existing PC computers will be on Windows 11 (Windows 10 End-Of-Life)

FAQ:

How do I upgrade my faculty/staff computer to Windows 11 from Windows 10?

Based on the Windows 11 Project Timeline referenced above, faculty and staff are able to upgrade their IT&IP-managed computer to Windows 11 using Software Center. From within Software Center, please select "Operating System" from the left menu and install the "Windows 11 23H2 Upgrade". You may upgrade your computer to Windows 11 at your convenience. Please note Windows 11 will eventually be a required upgrade for all PC computers. Please refer to the Windows 11 Project Timeline above for specific dates.

Please contact the IT&IP Service Desk for any questions.

Find more information about the Windows 11 upgrade, best practices for upgrading, and how long the upgrade will take at the link below.
